Hi Mayur,

Thank you for reaching out. At this point most faculty are not going to be able to answer this question because the schedule for the fall semester may not be ready. You will miss the first two weeks of the semester. The first week is add/drop so it's possible that someone misses that because they weren't enrolled in the class yet – you'll be OK there. However, I cannot guarantee a remote option for what you will miss, which might include the first week of lab. We will try to accommodate make-up work when you return. Please be in touch by email prior to your departure, more will be settled about the course then.

Best,  
Dr. Auld

**Subject:** MS967393: Regarding BIO 110-01 with LAB-73

Good Afternoon Professors,

I am currently enrolled in BIO 110-01 with LAB-73 during the fall semester.

Due to circumstances, I am under the transition of changing my visa status from a H-4 to a F-1 visa. For this I need to go back to my home country and get it changed without this I am not able to stay in America. This is urgent and the only available slot/appointment time for this is between August 29<sup>th</sup> and September 10<sup>th</sup>. Due to this I am going to be missing the first few weeks of class. Please let me know if I can do remote work or if there is another way to make-up work and to see if I can be excused for this period

Thank You,  
Mayur Suresh
